Hi Dr. Sachinidis,

I wanted to thank you again, for your wonderful care and concern.

Joel & I have been telling everyone how well we were treated at your clinic.

After we left Athens, (again, a very professional and caring experience), we went on to see our son and his family in Jerusalem.

In Israel, I had another occult blood and it showed positive. Also, I had a CBC and the hemoglobin was 10.8.

We cut short our visit, because my primary doctor in Houston and Joel, were worried about the results.

My gastroenterologist said that it wasn't an emergency situation, but since I had that malignant tumor/GIST last year, Joel really wanted us to go home.

Yesterday, I had a colonoscopy and endoscopy. Both were clear.

Biopsies from the stomach showed reactive changes only.

Be well and take care,

Thanks again to you and the staff, Linda Chess
