Paleo Faliro Clinic

7/19/16

The experience that we had at the Paleo Faliro Clinic Hospital was excellent! My husband, Gary Lanek, had a stroke while we were vacationing on a cruise ship and was brought to your hospital. The ambulance took over two hours to get to us, which was unfortunate, but once in the hospital we were put under the care of Dr. Sachinidis. Dr. Sachinidis took care of everything. He was professional, compassionate, thorough, and gave us great confidence and hope for a positive outcome. He arranged for my husband's surgery through surgeon, Gus, and Anesthesiologist, Anastasia, both of who were very skilled + professional. The ICU experience for my husband was very "unsettling" but the nurse Maria was comforting and communicated well with Gary.

The nursing staff on our floor (Room 212) were excellent. They all communicated as well (→over)

as they could in English and were compassionate + knowledgable. The nursing assistants were also excellent !!

The dietary personnel was so helpful and tried to accomodate our every wish.

The housekeeping staff was very diligent and friendly and respectfull.

Dr. Sachinidis' assistant, Miss Farantaki, was very friendly + helpful + worked with the uncertainty with our private insurance in a very professional and patient manner.

Last, but not least, our Physical Therapist Andreas Bastistatos brought joy, + humor, and unconditional acceptance of who we are to each therapy session. He and Dr. Sachinidis are outstanding professionals. Please thank all your staff for us, including the beautiful ladies + gentlemen that are in the reception area. They called taxis + gave directions + advice tirelessly + willingly. Thank you all again.
